# COMPANY PROFILE

## Overview

As expert construction trade contractors specialising in balustrades and handrails, Bright Balustrading Pty Ltd supply and install high-end custom fabricated metal and glass works for:

- Luxury homeowners/Builders/Developers
- Tiered builders
- Construction contractors specialising in high end construction and fit out.
- Civil & Landscaping contractors
- Strata Management
- Clients who value:
  - Quality
  - Experience
  - Expertise

Our speciality lies in our custom fabrication ability with all works individually designed and fabricated by hand and checked for quality assurance once ready to leave the factory.

With our “Signature client journey & process” ([Hyperlink here](#)) along with our “Project Experience” ([Hyperlink here](#)) & “Key Personnel” ([Hyperlink here](#)) from engineers & draftsmen, licensed fabricators, qualified trained welders, quality management personnel to administration team, all our team are dedicated to achieving our client’s outcomes whilst exceeding the highest of expectation of quality and reliability in delivery.

## Mission

Our mission is to be the metalwork, handrails, and balustrades contractor of choice for all people and projects. We strive to make our name synonymous with exceptional quality and extraordinary delivery standards.

## Vision

Redefining and setting higher standards on how balustrade & handrails contractors deliver their products from end to end. First contact to post completion. The best quality and customer experience

## Core Values

## Our Purpose

- **Achieving our client's primary objectives which may be one or a multiple of the following:**
  - Style, Luxury
  - Safety
  - Durability
  - Competitive & fairly priced solution
  - Speed of delivery
  - Compliance with NCC/BCA/AS/Council requirements
- **Helping deliver projects and spaces where it's occupants and users are safe and can take pride in their surrounding built environment**
- **Delivering works that are of highest quality:**
  - Materials
  - Workmanship
  - Finishes
  - Client experience
  - Engineering

## Bright Balustrading promises to our clients to

- Deliver the utmost quality compliant works that actively enhances client experience.
- Attend to detail as though your home was our own.
- Leave the spaces where our works are skilfully completed, more attractive & valuable than before.

## Our Maxims (Words we live by):

- Treat others the way you expect to be treated. Be reliable. Be Dependable.
- Maintain highest quality - Materials & Workmanship
- Carry yourself with the best of character. Uphold, protect and expand Bright's good reputation.
- Dedication to client experience & clients desired outcomes

### We Stand For

- Competition
- Accomplishment
- Specialisation
- Proactivity

### We Stand Against

- Mediocrity
- Chaos
- Miscommunication/Lack of clear communication
- Poor/No planning

## Our People

Our leadership team have over 100 years combined experience in the industry. We recruit the best talent from all over the country and enjoy exceptionally low turnover rates as our brand is known for how well we treat our team and clients.

## Our Specialization

We excel beyond normal standards in bespoke custom fabricated metalworks particularly in stainless steel, glass, aluminium, brass & electroplated handrails. All works are custom fabricated by our skilled inhouse fabricators using locally sourced materials.

## Our Estimating

Our Estimators & Sales teams come from a Project Management background. With clear understanding and experience with the concepts of design intents, D&C Contracts, Performance, and engineering solutions, this ensures your project is priced correctly & accurately.

## Our Clients

We exceed expectations for our clients who are expected to deliver superior quality for their own clients. We know what it means to your reputation.

## Our Standards

We are one of a select few metalwork supply and installation companies with ISO 9001 Quality Management Certification in Australia.

## Our Process

Custom developed processes that caters to our exact sales, operations and accounts department need to curate the most streamlined, efficient and effecting process for delivery for our clients

# WHAT SETS US APART

## Bright Signature Process

How your project gets from quotation to completion.

### Site analysis. To achieve the following

- To assess client requirements can be met
- Confirm BCA/NCC/AS requirements will/can be met with the proposed style
- Confirm access and installation method
- Confirm selected style/product is suitable for the client and the surrounding environment
- Confirm conformance with quote and contractual sum

### CAD / DRAWINGS / SKETCH. To achieve the following

- Provide visual representation
- Assess suitability of design
- Reduce risk of error in fabrication
- Ensures client knows what they're getting
- Engineering/Design compliance

### Custom fabrication

- Bright selects the most suitable fabricator based on their specialised strengths
- All works fabricated in our own purpose built factory in Greenacre
- With 5 dedicated fabrication stations working 6 days a week

### Onsite installation

- Bright selects the most suitable team of installers based on their strengths
- Bright has over 6 teams which constitute with over 13 skilled tradesmen and 6 specially kitted out utes.
- Designated team lead / Site manager assigned

### Documentation & Communication & Customer service

- Clear communication in every stage of works
- Ensuring high customer satisfaction is met
- All documentation supplied when most relevant:
- Insurances. Public Liability, Workers Compensation and Professional Indemnity Insurances
- Compliance Certification
- Warranty Certificate for materials and workmanship
- Cleaning & Maintenance Manuals
- Contractors License

## **Our Services – End to End**

### **● Quotation/estimation services**

*Our dedicated estimators provide accurate and fair quotes for private residential, strata and commercial clients such as builders, developers, quantity surveyors and architects onsite and off the plans. Our estimator service capabilities include:*

- Quantity take offs
- Plan mark ups
- Submitting conforming pricing
- Submitting cost saving alternatives
- Completing tender interviews
- Scope of work reviews
- Contract reviews

### **● Site measurements**

We attend your site to take accurate detailed site measurements.

### **● Computer Aided Designs (CAD) and drawings**

*We create the designs and drawings for your approval in line with fabricator and builder needs so you know what you exactly what you are getting. CAD design services include:*

- Visual design drawings/typical details
- Shop drawings
- Engineering design drawings
- Fabrication drawings
- Parts drawings
- Parts assembly drawings
- Installation drawings
- As built drawings

### **● Engineering:**

We have our partner professional engineering consultant whom work independently to assess structural adequacy and certification of our balustrade systems to ensure compliance with all engineering/NCC/AS Standards as required.

## ● **Materials procurement**

Bright has built long-lasting relationships with reputable Australian suppliers. This means meaning we guarantee materials are locally sourced including fittings, tools, and materials available off the shelf and custom-made goods:

## ● **Fabrication**

Our purpose-built factory in Greenacre 2190 ensures welds are conducted by the most experienced TIG welders for enhanced quality and structural superiority. Our dedicated fabrication manager personally stands over on time delivery without compromising quality.

## ● **Surface Finishing**

We provide the best-in class finishing services

- Powder coating
- Hot Dip galvanising
- Spray/Painted
- Gold, Brass and Bronze plating (not limited to) electroplating
- Electropolishing

## ● **Installation**

We maintain the highest Safety Management systems, so all installs are done safely and skillfully, including detailed mark outs and set outs, core drilling of surfaces, installation team minimums of 2 skilled tradesmen/technicians/welders.

## **Post Completion**

To ensure full satisfaction we provide comprehensive handover documents that include warranties on materials and workmanship, Certificate of Compliance to relevant BCA/NCC/AS standards, structural adequacy report (If required) and customer satisfaction surveys

## ● Meet the Team

Our team is a carefully chosen group who have led and transformed our industry for well over a combined 100 years. We are fully licensed experts who have blown-away some of the world's most recognizable brands with our exemplary service in all manner of balustrades. We appreciate that your buildings depend on impeccable quality, so our team sets that as their minimum benchmark.

## Our Plant, Equipment, Office and Factory

- Display areas for our most popular products of balustrade and handrails
- Separate workstations of dissimilar metals. Separation between Black/Mild steel and stainless steel to avoid cross contamination
- Dedicated area for quality control and protection wrapping
- 5 dedicated utes with thoroughly maintained registers for tools and safety equipment
- TIG, MIG & Stick welding machines to weld any type of metal for any purpose which includes all grades of Stainless steel including 316, 316L, Duplex as well as all grades of aluminium, all types of steel including black and galvanised, brass, and bronze metals.
- Internal goods lift for access to mezzanine floor for a cleaner workplace
- Our own garden with fresh vegetables and herbs to allow our employees to consume the freshest produce ???
- 2 office workspaces. 1 for sales and administration staff with another for marketing related personnel
- Board room area for internal and external party meetings
- Lunch area????
- Secure server room for IT related assets with cloud backups

## Span of Operations

*Bright Balustrading services and operates in the Sydney and greater Sydney areas of NSW, Australia*

*Bright Balustrading's clients and projects are in the following council areas as they are located near the sea and other waterbodies which means stainless steel is the most preferred metal and Bright Balustrading's speciality.*

*These areas are:*

## **Work, Health & Safety Guidance**

Bright Balustrading Pty Ltd recognises its moral and legal responsibilities, particularly with regard to the Work Health. To ensure the upkeep of our unblemished safety record, Bright employs and empowers an inhouse safety officer to lead our safety policies.

Our Safety Officer with the help of our veteran team and local and state authorities have constructed our diligent safety legislation, to provide a safe and healthy work environment for employees, contractors, customers, and visitors.

Bright's commitment extends to ensuring the organisation's operations do not place the local community at risk of injury or illness as a result of any of our business activities. This commitment encompasses a pledge to our environmental responsibilities discussed later.

Bright Balustrading Pty Ltd recognises that management have the overall responsibility to provide a safe workplace. Therefore, each management representative will be held accountable for implementing this policy in their area of responsibility with further inspection during annual performance reviews. These responsibilities broadly encompass:

### ***Facilitating a culture that enables continuous improvement in WHS performance.***

- Providing and maintaining the workplace in a safe condition.
- Ensuring all WHS policies and procedures are implemented.
- Actively promoting and being involved in those policies and procedures.
- Providing internal and external resources as required to meet WHS commitments.

## **Environmental Management Policy**

Bright Balustrading Pty Ltd not only recognises its moral and legal responsibilities; we are fully committed leaders in prevention of pollution and consider the responsible management of environmental issues as an essential component of our business. Our policy extends our responsibilities in every capacity from material sourcing to sound practice and waste management.

### **Environmental Management Policy Objectives**

Our policy aims to implement, maintain, and lead an Environmental Management System that continually improves and ensures that Bright Balustrading's operation are environmentally conscious and accountable. Each tenet of our policy requires that Bright's business activities be:

- 1.**Strictly conducted in an environmentally sound and responsible manner at all times.
- 2.**Integrate the codes of our Environmental Policy into work practices without fail.
- 3.**Assess environmental risk of existing operations and all areas under Bright's control and minimise risk where possible.
- 4.**Ensure compliance with legislative requirements and current "best practice" standards and/or codes of practice.
- 5.**Provide employees, contractors with regular information, instruction, training, and supervision to perform their tasks in a manner designed to comply with legislative requirements and minimise any negative impact on environment.
- 6.**Establish the objectives and framework for continual improvement of the environmental management system inclusive of attending environment seminars.
- 7.**Ensure that all accidents and incidents, which pose potential harm to the environment, are reported to the relevant statutory authority whilst also carrying out internal investigations that deliver practical, forward-thinking recommendations.
- 8.**Identify and utilise environmentally sound, technically acceptable products, practices, and services, and where practicable selecting natural resources which can be recycled, re-used, or disposed of safely.
- 9.**Implement waste minimisation strategies to ensure impact on the environment is negligible or prevented.
- 10.**Scrap metal bins so all metal wastes are recycled. Dedicated waste bin. (Insert pictures of bins)

## Quality Assurance

Bright has been around for over 10 years and is one of the longest serving business' in the Sydney metalworks market. It is our experience, continuous growth and commitment to our community that goes to prove how refined and experienced Bright Balustrading has become today. We believe our unrelenting pursuit of quality is why Bright Balustrading is widely regarded as the go to for stainless steel metalworks needs.

Insert ISO related articles created by Faizan for website

However, it is our belief that we owe it to our customers to demonstrate our quality and that is why Bright Balustrading is one of a select few metalwork supply and installation companies with the world recognised ISO 9001 Quality Management Certification in all of Australia.

The International Standards Organization certification establishes that Bright excels in 7 principal areas to satisfy international recognition.

In any business sector, a company that has achieved ISO 9001 certification has a distinct operational advantage. For this and many other reasons, ISO certification is fast becoming a benchmark for successful business operations who are designed ultimately to benefit the end receivers of the products and/or services carried out.

Having an ISO management system assists improve our team's involvement within your business and operations. The certification leads to our team members to having a more detailed understanding of how their roles affect the delivery of the works. Furthermore, Bright Balustrading can demonstrate a greater understanding of the training requirements of individual team members ensuring our works are delivered in the best way possible and with the highest quality.

Bright Balustrading's ISO9001 certification specifically ensures our commitment to continuous improvement. Adopting the requirements of any ISO management system solidifies recognized best practice into any qualifying business

For Bright, it means each management system is built with the involvement of experts from around the world who identified the basic elements a business should put in place.

By using ISO9001 to design our Quality Management System (QMS), Bright have drawn on this tried and tested expertise and have designed an effective management system that has led to improved operations. With this improvement in operations comes an improvement in operating efficiency, organisational performance, and productivity.

Bright's ISO Certification provides external recognition from other quality assured companies which include client companies, suppliers, contractors, and others. This allows the ISO issuing authority to recognise Bright has systems including (but not limited to):

- Corrective action process
- Accountability and traceability systems
- Risk management systems
- Active and ethical customer complaints procedures
- Proactive system for addressing non-conformance
- And a continual problem-solving ethos leading to upgrading operations and performance.

All clients, suppliers and any other parties that interact with Bright Balustrading are also benefactors from these systems either directly or indirectly.

Despite our international recognition, Bright does not stop at satisfying these standards. We also have an effective quality management system in place allowing Bright Balustrading to be better equipped to serve our client's needs.

We consistently improve our efficiency in day-to-day administrative duties as well as for the supply and installation of our products and services. This efficiency also allows for costs to be saved which we pass onto clients giving maximum value for money as well as the confidence that there are verified, value driven systems in place that take the client from first interaction right through to works completion and even post completion.

## Bright Balustrading Insurances

### Work Compensations

Bright Balustrading has a current “icare Workers Insurance” for its employees. We are happy to supply our Certificate of Currency upon request

Bright’s worker’s insurance policy provides an employer coverage in the event one of our or your employees suffers a work-related injury or illness. The policy insures businesses against the cost of supporting your injured worker and may include:

- Weekly compensation benefits.
- Medical and hospital expenses.
- Rehabilitation services.
- Certain personal items (e.g., clothing or spectacles damaged in work-related accident).
- Lump sum payment for death or permanent impairment.

NSW regulations mandate that all employers provide Worker’s Insurance unless you are considered an ‘exempt employer’. An employer is any person or business entity that employs or hires workers on a full time, part time or casual basis, under an oral or written contract of service or training contract. Without a valid certificate, your business may be fined or penalised up to \$55,000 with a possible six-month imprisonment. Working directors of a corporation are considered employees of the corporation.

For more info, please visit: <https://www.icare.nsw.gov.au/>

### Public Liability

General Liability insurance, also known as Public and Product Liability insurance, helps to protect your business in the event a claim for compensation is brought against us for injury or damage arising out of the course of business.

Bright Balustrading has a duty of care to prevent harm or damage to all people and property you or your employees encounter during the course of business. To ensure full compliance and duty of care, Bright maintains our Public Liability insurance for the insured sum of \$20 million.

Try as we might to prevent these incidents, they are often beyond our control. It might be a slip or trip that causes injury or even a faulty product that damages property.

They may not even be Bright’s fault. But they could cost millions.

### **Public Liability used for:**

#### **Personal injury-**

Claims for medical costs and damages that result from an injury or illness caused by your business.

#### **Property damage-**

Claims for physical loss, destruction or damage to tangible property caused by your business.

**Legal costs** - Covers the costs we incur to defend you and your reasonable expenses incurred to defend a claim against your business.

## **Professional Indemnity- Engineering Consultant**

Bright Balustrading only uses an external engineering consultant who are reputable, experienced, and equipped with Professional Indemnity insurance. This is important for all parties including the client as it assures them adequate recourse is available where necessary

A Civil Liability Professional Indemnity Wording tailored specifically for Design & Construction Professionals covering key exposures in the following disciplines:

- Engineering
- Architecture
- Surveying
- Construction/Project Management
- Town Planning
- Drafting
- Certification

### **Cover Includes (Key Features):**

- Automatic Reinstatement
- Breach of Confidentiality
- Claims Preparation Costs (\$25,000)
- Consumer Protection Legislation
- Continuous Cover
- Court Attendance Costs
- Dishonesty of Employees
- Fidelity (\$50,000 maximum)
- Contractual Liability
- Infringement of Intellectual Property
- Joint Venture Liability
- Libel or Slander
- Lost Documents
- Official Investigation and Enquiry Costs (\$250,000)
- Public Relations Expenses (\$50,000)
- Run Off Cover Insured Entity or Subsidiary
- Statutory Liability (\$250,000 Maximum)
- Sub-contractors, Consultants and Agents (Vicarious)
- Technology Services

## Professional Association

With around 100,000 individual members, Engineers Australia is the profession's leading authority. They are the voice of the profession and exist to advance the science and practice of engineering for the benefit of the community and by extension, our clients.

Engineers Australia is the trusted accreditation authority for tertiary engineering education in Australia and overseas. Their high standards, globally recognised credentials and international agreements enable Engineers Australia members to live and work around the world.

## NSW Government Certified Contractor Approved

Bright Balustrading holds a contractor's license. NSW Contractor Licence Number: 247744C  
Builders and tradespeople in NSW need to be licensed to do building work where the total cost of labour and materials is more than \$5,000.

To be eligible for this licence, you must:

- be at least 18 years of age and not be a current apprentice or trainee.*
- be considered a fit and proper person for the purposes of the licence.*
- not be disqualified from holding an authority under the relevant legislation.*
- have the necessary qualifications and practical experience specified by Service NSW.*
- not be a debtor to NSW Fair Trading or Administration Corporation.*
- have not performed work subject to an unreasonable number of insurance claims.*
- provide details of required insurance under the Home Building Compensation Fund*

The risks of falls from heights and along egress and access paths such as stairs and ramps, to both people and property are well-known, so all State and Territory Governments have legislation in place which regulates who can supply and install metalworks, balustrades, and handrails.

These rules are for the protection of the consumer. They give recourse if something goes wrong and help to ensure that the metalworks/balustrade/handrail contractor or any other professional trade you use is qualified and able to carry out a quality job.

Any contractor you engage to work on a property must have a contractor license to be contracted or subcontracted to do any metalwork for you. This licence is issued by the Department of Fair Trading in NSW.

Homeowners with illegal balustrades/handrails are warned that you may find that you are not covered by your home building insurance policy in the event of a fall when it can be traced back to the illegal and poor materials/workmanship of the balustrades/handrails.

Do not take a risk with fall protection systems, only use reputable licensed metalwork contractors to undertake works.

## **Community Involvement**

Bright Balustrading was proud to be involved in the upgrade of the boxing equipment facilities. Bright designed and fabricated new boxing bag supports to ensure safety and longevity for all users. We also supplied and installed new supports to replace the old and also adding additional bag supports to allow the gym to cater to more of the community.

Bright was involved in the design, fabrication, supply, and installation of the new, bigger and better boxing ring. This was to allow gym goers to experience and train in a professional sized ring and dream of what it would be like to reach the heights of the professional boxing world. Bright continues to support Brotherhood boxing as we believe it is important to give back to the community, especially the community our company operates in. Bright believes ethos is to support locally and to support the local community's youth gym.

## Client testimonials

The old cliché adage is that the customer is always right and what they have to say about a business carries more weight than what anyone tells you.

Bright Balustrading has a Google rating of over 4.5 stars from over 35 genuine clients' from over the years. We are proud to say these ratings are the best of any balustrades and handrails supplier and installer in NSW.

## Customer Service Philosophy

Bright Balustrading is a part of your community and we endeavour to make every project we touch a glistening success. We know your pride of place depends on your contractors tending to the finer details so that is what we focus on.

Our team is blessed with industry leading accreditation and veteran experience with over 2000 successfully completed projects all around Sydney and New South Wales. The combined 100+ years of experience of the Bright team assures that you are being served by the best in the business. We cut no corners and source all our materials in a transparent process that gives you confidence because it is important to us.

Our entire process from providing free quotation services to our after-sales handover documentation and care is constructed to ensure each customer feels heard, valued, and inevitably impressed. We treat each client with respect and professionalism and deliver a more efficient and stunning result than you might think possible.

Ultimately, we espouse our values of quality, expertise, and experience in everything we do for each client no matter the project.
